

Cool (API) Tools

FREEEEEEEEEE tools!

- Semgrep OSS (static analysis for any code)
- Zap (free DAST, can talk to APIs)
- VulnAPI (API-specific DAST)
<https://vulnapi.cerberauth.com/>
- APIClarity – Inventory and DAST
- <https://github.com/openclarity/apiclarity>
- Astra – API DAST - <https://github.com/flipkart-incubator/Astra>

Cool (API) Tools

- Automatic API Attack Tool

<https://github.com/imperva/automatic-api-attack-tool>

- Hoppscotch – Free Postman Alternative

<https://github.com/hoppscotch/hoppscotch>

- HURL – do API calls from the CLI

<https://hurl.dev/>

- http-tanker – do API calls from the CLI

<https://github.com/PierreKieffer/http-tanker>

- openapi3-fuzzer – API fuzzer

<https://github.com/vwt-digital/openapi3-fuzzer>
